**FMC158**

Multi I/O FMC Module, M-LVDS, RS-485/RS-422, GPIO +3.3V/+5V, 8 ADC and 8 DAC

---

**Key Features**

- Multiple I/O in single FMC form-factor
- 32x M-LVDS input/outputs with speed up to 350 MHz and programmable crossbar circuit routing
- 5x RS-485/RS-422 with speed up to 50 Mbps
- Programmable termination per port for RS-485/RS-422
- 8x GPIO with +3.3V and 8x GPIO with +5V
- 8x DAC 16-bit @ 1 MSPS (TI DAC80508ZC)
- 8x ADC 16-bit @ 500 KSPS (TI ADS8588H)

**Benefits**

- Single module to provide multiple I/O
- Utilizing commercially-available, standard high-density connector for ease of cabling
- All I/O types utilize differential signaling between the transceivers on the FMC and the FPGA on the carrier for optimal signal integrity across the FMC connector
- Programmable M-LVDS termination and routing
- Electrical, mechanical, software, and system-level expertise in house
- Full system supply from industry leader
- AS9100 and ISO9001 certified company
FMC158

The FMC158 is an FPGA Mezzanine Card (FMC) per VITA 57.1 standard, offering a small footprint and allowing for general-purpose I/O expansion.

The FMC158 provides 32 x M-LVDS input/outputs, 5x RS-485/RS-422 (per configured port), 8x GPIO +3.3V, 8x +5V GPIO, 8x ADC at 512 KSPS and 8x DAC at 1 MSPS.

The M-LVDS signals go through a Cross Bar Switch (CBS), which allows input/output routing within each group of eight M-LVDS signals. Each CBS Port can be individually software-configured for routing, termination, and direction.

Each of the single-ended Ports can be configured as input or output. The RS-485/422 configuration can be selected as full-duplex RS-422 (independent RX/TX pairs with RX termination) or half-duplex RS-485. Each RX is programmable for termination.

The module includes 8x ADC and 8x DAC both with 16-bit resolution.

The FMC158 is 13 mm high (the VITA 57 specification is 10 mm). Therefore, the front panel I/O for the Carrier must be modified to allow the FMC158 to mate properly.

The FMC158 can provide power of up to 12W to an external module.

| Type | FMC Digital I/O |

### Standards

| FMC | Type | ANSI/VITA 57.1 - 2008 |

### Configuration

| Power | FMC158 | 4W without the external module taking any power (external module can take up to 12W) |

| Environmental | Temperature | See Ordering Options |
|               | Storage Temperature: –40° to +85°C |
|               | Altitude | 40,000 ft non-operating |
|               | Vibration | Operating 9.8 m/s² (1G), 5-500 Hz |
|               | Shock | Operating 30Gs each axis |
|               | Relative Humidity | 5 to 95% non-condensing |

| Front Panel | Interface Connectors | Triple high-density connector |
| Front Panel | LEDs | Status |

### Software Support

| Operating System | Agnostic |

### Other

| MTBF | MIL Hand book 217-F@ TBD hrs |
| Certifications | Designed to meet FCC, CE and UL certifications, where applicable |
| Standards | VadaTech is certified to both the ISO9001:2000 and AS9100B:2004 standards |
| Warranty | Two (2) years, see VadaTech Terms and Conditions |

## INTEGRATION SERVICES AND APPLICATION-READY PLATFORMS

VadaTech has a full ecosystem of OpenVPX, ATCA and MTCA products including chassis platforms, shelf managers, AMC modules, Switch and Payload Boards, Rear Transition Modules (RTMs), Power Modules, and more. The company also offers integration services as well as pre-configured Application-Ready Platforms. Please contact VadaTech Sales for more information.

Notes: **The Carrier front panel must be modified to allow the FMC158 to mate properly.**
**For use with carriers that require higher mating clearance, such as VadaTech AMC595.**
***Conduction cooled; temperature is at edge of module. Consult factory for availability.**

Choose VadaTech

We are technology leaders
- First-to-market silicon
- Constant innovation
- Open systems expertise

We commit to our customers
- Partnerships power innovation
- Collaborative approach
- Mutual success

We deliver complexity
- Complete signal chain
- System management
- Configurable solutions

We manufacture in-house
- Agile production
- Accelerated deployment
- AS9100 accredited
