

MRT012

MTCA.4 RTM Five-zone Airflow Meter

MRT012

Key Features

- Five zone airflow sensor
- Eight temp sensors to monitor various on-board temperatures
- Module allows adding blocks to emulate a true pay load module impedance
- IPMI 2.0 compliant
- RoHS compliant

Benefits

- RTM design for extended access
- Design utilizes proven VadaTech subcomponents and engineering techniques
- Electrical, mechanical, software, and system-level expertise in house

AdvancedMC™

vadatech
THE POWER OF VISION

MRT012

The MRT012 provides an easy way to test/monitor airflow in five zones. There are four temperature sensors on the air flow intake side and four others at the air flow exit side to continually monitor the air temperature.

The module have provision to add blocks to emulate a true pay load module impedance. The readings allows to see the air flow across the different AMC zones (I/O, A, B, C and D).

Specifications

Architecture	
Physical	Dimensions Double module, mid-size (full-size optional) Width: 5.85" (148.5 mm) Depth 7.11" (180.6 mm)
Type	AMC Development RTM Airflow test and monitoring
Standards	
AMC	Type AMC.0
Module Management	IPMI IPMI version 2.0
Configuration	
Power	MRT012 2 W
Environmental	Temperature Operating temperature: -5° to 45° C (55°C for limited time, performance restrictions may apply), industrial versions also available (See environmental spec sheet) Storage Temperature: -40° to +95°C Vibration Operating 9.8 m/s ² (1G), 5 to 500Hz on each axis Shock Operating 30G each axis Relative Humidity 5 to 95 per cent, non-condensing
Front Panel	Interface Connectors None LEDs IPMI management control Mechanical Hot swap ejector handle
Other	
MTBF	MIL Hand book 217-F@ TBD hrs
Certifications	Designed to meet FCC, CE and UL certifications, where applicable
Standards	VadaTech is certified to both the ISO9001:2000 and AS9100B:2004 standards
Warranty	Two (2) years

INTEGRATION SERVICES AND APPLICATION-READY PLATFORMS

VadaTech has a full ecosystem of ATCA and μ TCA products including chassis platforms, shelf managers, AMC modules, Switch and Payload Boards, Rear Transition Modules (RTM), Power Modules, and more. The company also offers integration services as well as pre-configured Application-Ready Platforms. Please contact VadaTech Sales for more information.

Related Products

AMC001

- 32-bit IPMI RISC processor
- Up to 90W adjustable power load
- True payload power request to the carrier (MCH/Shelf)

AMC012

- Five zone airflow sensor
- Eight temp sensors to monitor various on-board temperatures
- Front panel LCD to indicate airflow and temperature

MRT011

- Up to 192W adjustable power load
- True payload power request to the carrier (MCH/Shelf)
- Eight temp sensors to monitor various on-board temperatures

Choose VadaTech

We are technology leaders

- First-to-market silicon
- Constant innovation
- Open systems expertise

We commit to our customers

- Partnerships power innovation
- Collaborative approach
- Mutual success

We deliver complexity

- Complete signal chain
- System management
- Configurable solutions

We manufacture in-house

- Agile production
- Accelerated deployment
- AS9100 accredited
