Title: <b>CYBER SECURITY COMPLIANCE DECLARATION</b>		

**Statement Issue Date:** July 2024

VadaTech meets the existing requirements of CMMC 2.0

The cybersecurity Maturity Model Certification (CMMC) revision 2.0 is a unified cybersecurity standard for Department of Defense (DoD) acquisitions, aimed at securing the Defense Industrial Base (DIB) supply chain. This standard was updated in 2021 and is now considered “CMMC 2.0” Defense Federal Acquisition Regulation Supplement (FARS) Clause 252.204.7021, or the “CMMC Cluse” is currently under review. While the status could change, the latest information on completion of the final Federal rulemaking is expected in 2024, and contractors are likely looking at CMMC rules would become final. Once it becomes final it will take at least another 6-12months for auditors to become certified to be able to audit/certify other entities.

Further information on the standards release can be referenced here:
