Title: DECLARATION PFAS REPORTING UNDER TSCA		

Statement Issue Date: January 2024

The United States Toxic Substances Control Act (TSCA) is a federal regulation that allows the Environmental Protection Agency (EPA) to comprehensively manage chemicals in U.S. Commerce. This includes reporting requirements under TSCA Section 8(a)(7), which apply to perfluoroalkyl and polyfluoroalkyl substances (PFAS). TSCA mandates the reporting of certain information from U.S. manufacturers of all PFAS chemicals, including PFAS created as manufacturing byproducts. Reporting is also required for PFAS imported into the United States, whether on their own or as an incorporated article component

PFAS are a complex group of chemicals; TSCA PFAS requirements apply to all types of PFAS used in U.S. commerce, as defined by the EPA's Chemical Data Reporting (CDR) database. More information is available from the EPA's [TSCA PFAS webpage](#).

In Europe groups of PFAS substances are regulated in the [EU-POP regulation EU2019/1021](#)

VadaTech hereby declare, we do not use the above-mentioned chemicals in the manufacture of our products and based on our current knowledge, we inform that our products do not contain PFAS.
