New Mil/Aero Embedded Computing Brochure from VadaTech Highlights Superior Performance Density

Henderson, NV – May 12, 2015 – VadaTech, a manufacturer of embedded boards and complete application-ready platforms, has announced a new brochure on Defense & Aerospace Computing. The brochure includes products and application-ready solutions utilizing modular open standard architectures.

The VadaTech Mil/Aero Brochure has sections on application briefs, products/solutions, small form factor solutions, software enhancement services, and background information on VadaTech. A recurring theme in the brochure is superior performance density, provided by VadaTech's creative design approach and inherent benefits found in its chosen modular architectures. Utilizing compact high-performance form factors, VadaTech is able to greatly reduce SWaP-C (Size, Weight, Power, and Costs) in most designs.

The application examples in the Mil/Aero brochure include RADAR Signal Processing, C4ISR Data Processing & Communications, Situational Awareness, and Naval Towed SONAR Arrays. The brochure also describes the open standard modular platforms VadaTech utilizes such as MicroTCA, AdvancedTCA, CompactPCI, OpenVPX, and more.

Contact VadaTech for more information on modular computing solutions and Mil/Aero designs for superior SWaP-C at sales@vadatech.com or by visiting the Web site at www.vadatech.com.

About VadaTech

VadaTech provides innovative embedded computing solutions from board-level products, chassis-level platforms, to configurable application-ready systems. With a focus on MicroTCA and AdvancedTCA solutions, the company offers unmatched product selection and expertise in the full xTCA ecosystem. With our unique combination of electrical, mechanical, software, and system-level expertise, VadaTech can provide customized commercial or rugged computing solutions to meet the most complex customer requirements. VadaTech also offers specialized product solutions for VPX/VME, CompactPCI, and other architectures. A member of PICMG and VITA, VadaTech is headquartered in Henderson, NV with offices in Europe and Asia Pacific.
