### **VadaTech Announces a ½ ATR VPX Chassis with Five 3U Slots and ARINC 600**

Henderson, NV – February 3, 2024 – VadaTech, a leading manufacturer of integrated systems, embedded boards, enabling software and application-ready platforms, announces the [VTX879](#). The VTX879 is a ½ ATR VPX Chassis with five 3U VPX slots. The I/O is via ARINC 600 style and can be designed to customer specification.

The VTX879 has a single slot 3U VPX Power Module. For cooling, the module has fins on the two sidewalls to radiate the heat out. The backplane can provide up to five 3U VPX payload slots in addition to the single slot for the Power Module. The backplane is routed per customer specifications. Please consult with VadaTech Sales to discuss specific ordering options.

#### **About VadaTech**

[VadaTech](#) provides innovative embedded computing solutions from board-level products, chassis-level platforms, to configurable application-ready systems. With a focus on AdvancedTCA, MicroTCA, VPX and PCIe solutions, the company offers unmatched product selection and expertise. A unique combination of electrical, mechanical, software, and system-level expertise, enables VadaTech to provide customized commercial or rugged computing solutions to meet the most complex customer requirements. VadaTech also offers specialized product solutions for VME, CompactPCI, and other architectures. A member of PICMG and VITA, VadaTech has headquarters, design and manufacturing facilities in Henderson, NV with design, support and sales offices in Europe and Asia Pacific.
